

# PlanB. Power Platform Managed Service

– aligned to your digital transformation strategy.

The Microsoft Power Platform enables your enterprise to achieve business value where neither classic IT based processes fit, nor tailored off-the-shelf products are suitable. Studies predict that demands for digital apps will grow at least 5x faster than IT capacity is able to deliver. Falling behind in the digitalization imposes a high risk on organizations. The key is to enable your employees to take on this vital part of your digital success. But it needs to be done right – and our Power Platform Modern Managed Service supports you in all the necessary areas.

The potential value for an enterprise is huge, but as important is the sustainable introduction of Power Platform. Enterprises and especially IT departments are often not equipped with what it takes to properly enable the Citizen Development.

The better this is done right from the beginning, the faster the business value is leveraged – therefore we have created the Power Platform Managed Service offering.

We will help you in defining the strategy and goals, secure the platform, take over the governance and security monitoring, Actively nurture and build communities, assess and advise on use-cases to drive the business value.

We are here to help you on the journey. Regardless if you are at the beginning, or are already leveraging the Power Platform, we will help you maximizing your potential.

## In a nutshell:

We help you to drive Innovation & Creativity, Nurture and empower people to leverage low-code to drive your success, while at the same time ensuring governance and guardrails to be followed.

## You can concentrate on your core business.

PlanB. Power Platform Managed Service in concrete terms means:

### Vision & Strategy

Jointly defining and understanding the goals you seek to achieve with the Power Platform enables us target our services in the right way:

Licensing, KPI definition, data security / residency, Support model, help in communication, etc.

We'll focus on the KPI's and will proactively review and refine the set goals jointly on a regular basis.

### Admin, Governance & Support

Together with you we will define the governance & security specific to your enterprise, bringing in our experience from the field. We take over the monitoring of your environments continuously, ensuring governance & security standards are followed and will give you proactive recommendations to improve further.

# PlanB. Power Platform Managed Service

## Nurture, Change & Adoption

User adoption means much more than just providing end user training, but an ongoing process. Therefore, we recommend the integration of several feedback loops in order to analyze again and again whether the derived measures meet the different needs and requirements. We will proactively build and moderate communities, identify your champions, define training paths, conduct regular events, manage resistance and provide technical support to enable your Citizen Developers to excel.

## Drive Business Value, Fusion Teams & Automation

- Target advanced use cases to enable IT and Fusion Teams approach.
- Enable Application Lifecycle Management process for bigger use cases.
- Assess your use cases to decide on the technical implementation scenario.
- Review IT Migrations to what way Power Platform is beneficial.
- UX & UI Design review to tune apps best to meet usability standards and maximize adoption
- Extract and Communicate templates & best practices

## Differentiated Power Platform Managed Services strategy tailored to your company.

PlanB. Power Platform Managed Service is always considered holistically with your value chain. With our approach, we are close to you, to

- drive innovation
- inspire your users
- recognize needs and trends
- react quickly to your requirements
- achieve our common objectives

**Our managed service approach underlines the necessary flexibility, which is also positively valued by our customers in projects.**

**Whether personally or virtually, a short contact is enough. We are looking forward to it!**
